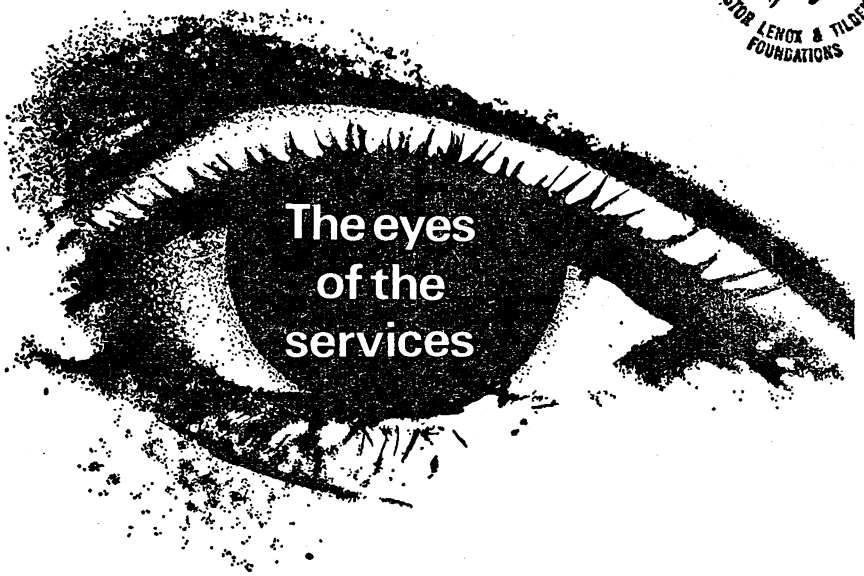
THE NEW YORK PUBLIC LIBRARY
ASTOR LENOX & TILDEN FOUNDATIONS



The human eye is a truly magnificent piece of optical equipment, having practically the maximum theoretical resolution possible for its aperture and excellent sensitivity in comparing similar colours and shades. However, in modern warfare it has some severe limitations, many of which may be overcome by using Barr & Stroud equipment.

The eye is sensitive only to visible light, which is a very small part of the electromagnetic spectrum. We make glasses to transmit the longer wavelengths in the infra-red, used in missile guidance systems and proximity fuses, and also design and make airborne radar equipment, using much longer, millimetre wavelengths.

Barr & Stroud sights, periscopes and rangefinders all extend the usefulness of the eye, particularly in making measurements and observing detail. A pair of eyes acts as a simple stereoscopic rangefinder, but is not accurate. Barr & Stroud, who invented the forerunner of the modern optical rangefinder 75 years ago, now make laser rangefinders giving even greater accuracy, particularly over longer distances.

The Navy List is compiled and published by order of the Defence Council for the convenience of the Naval Service, but as errors may occasionally occur the Council must expressly reserve the right to determine the status of any Officer according to the actual circumstances of the case, independently of any entry in the Navy List.

NOTES

Officers and others who may notice errors or omissions in the List are invited to communicate direct with

The Editor of the Navy List,
Ministry of Defence (N.P. 2),
Old Admiralty Building,
Whitehall,
London, S.W.1,

mentioning the ship or page in question. Communications should be marked " On Her Majesty's Service," and need not be stamped.

The Navy List is published four times a year—in the Spring, Summer, Autumn and Winter.

The Spring edition is the full edition, on sale to the public, and is published in February. The other editions are abridged and contain only the alphabetical list of officers of the R.N., R.M. etc., the list of ships and air squadrons, etc., with their key officers and a few other pages, but the Autumn edition also contains the seniority lists of R.N., R.M., W.R.N.S., Q.A.R.N.N.S. and Commonwealth officers. The Summer, Autumn and Winter editions are published in June, September and December respectively.

The Navy List of Retired and Emergency List Officers is published in November every other year, the next edition being 1967.

The rates of pay, regulations, &c., are contained in a special sale publication entitled " Appendix to the Navy List," which is published annually in August.

Officers who succeed to peerages, baronetcies, or courtesy titles should immediately notify the Editor in order that the necessary alterations may be made in the Navy List and official records.

The degrees shown after Officers' names in the Navy List are not necessarily a complete list of those held, but, generally speaking, are confined to degrees of an honorary nature conferred specially upon an Officer, and those which are so related to the professional duties of an Officer as to give some indication of his professional qualifications.

This edition of the Navy List is corrected to include those promotions, appointments, etc., promulgated on or before 10th December, 1965 as becoming effective on or before 31st January, 1966.

The above list is issued for the information of Captains of Her Majesty's Ships with reference to the provisions of Article 1252 of the Queen's Regulations and Admiralty Instructions, under which they are authorised to ascertain whether British Merchant Ships (including Fishing Vessels) flying the Blue Ensign of Her Majesty's Fleet are legally entitled to do so.

2. The detailed regulations issued by the Ministry of Defence (Navy Department) and the Board of Trade lay down the following conditions relative to the wearing of the Blue Ensign:—

The Blue Ensign *is not to be worn if*—

(*a*) from any circumstances, the Officer to whom the Warrant was issued is not in command of the ship;

(*b*) the number of persons qualifying as "reservists" (see *Note* below), in addition to the Commanding Officer, is less than the following requirement:—

(i) in a ship other than a fishing vessel, one reservist officer,

(ii) in a fishing vessel, four reservists,

unless it can be shown by the endorsements on the Agreement or by entries in the official log, that the reduction in the number has been caused by death, sickness, desertion, or joining a British Man of War, or by some unavoidable casualty.

3. Commodores and Captains on the active or retired lists of the Royal Naval Reserve or Commonwealth Naval Reserves qualify for the privilege in their own right, without the requirement of a number of reservists.

4. Article 1252 of Queen's Regulations and Admiralty Instructions prescribes the action to be taken by the Captain of one of Her Majesty's Ships if a merchant ship is found to be wearing the Blue Ensign without the Warrant or otherwise not complying with the foregoing regulations.

Note.—"Reservists" can include Officers and men of the Royal Naval Reserve or of a Commonwealth Naval Reserve, time-expired ratings who have completed 20 years' service in the Royal Naval Reserve, members of the Royal Naval Special Reserve, Officers on the retired or emergency lists of the Royal Navy or of a Commonwealth Navy, men belonging to the Royal Fleet Reserve, Royal Naval Pensioners and Royal Marine Pensioners.

Applications for admission should be made to the Director of Greenwich Hospital at the address given below as soon as boys reach the age of 10 and before the age of 10¼. Applications on behalf of over-age boys can be considered only where there are exceptionally strong compassionate circumstances, e.g., death of a parent. No fees are charged for boarding facilities or clothing. The current fee for tuition is £100 a year.
